

Predicted Category: Meningioma

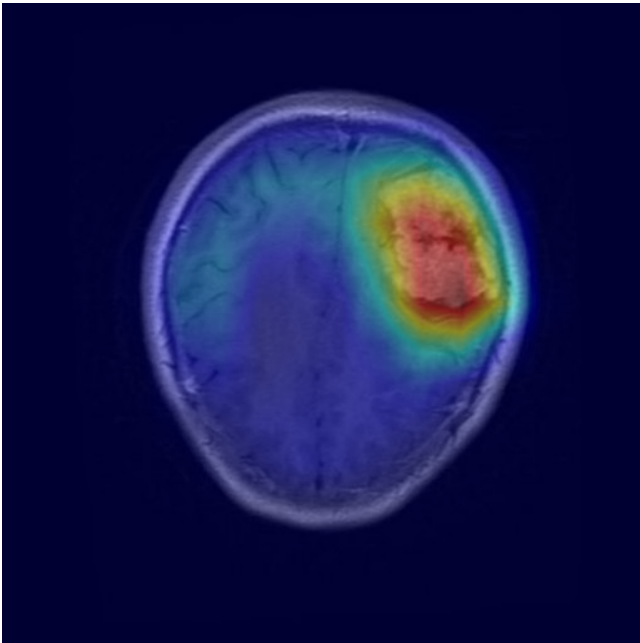

AI Confidence: 99.98% (Very High Confidence)

Category Probabilities

Category	Confidence Score
Glioma	0.02%
Meningioma	99.98%
No Tumor	0.00%
Pituitary	0.00%

Grad-CAM Overlay Visualization

The highlighted region displays areas of feature density contributing to prediction:

Inference Specifications

- **Model:** EfficientNet-B0 (v1.0.0)
- **Device:** CUDA
- **Latency:** 118.0 ms

Medical Disclaimer:

This report was automatically generated by an Artificial Intelligence system for research, educational, and clinical decision-support purposes. The prediction represents the output of a deep learning model based on the provided MRI image and should not be interpreted as a definitive medical diagnosis. The generated Grad-CAM visualization highlights image regions that contributed to the model's prediction, but it does not prove the presence, location, or extent of disease. All findings must be reviewed and interpreted by qualified radiologists or licensed healthcare professionals in conjunction with clinical history, additional imaging, laboratory findings, and professional medical judgment.
